The Northern Lights

Finnish Lapland sits directly under the auroral oval — one of the best places on Earth for Northern Lights. From September through March, the long polar nights and pristine Arctic air create ideal viewing conditions across all our destinations.

We offer dedicated aurora hunts by snowmobile, reindeer sleigh, and on foot — led by expert guides who know the best viewing spots. Or simply watch the lights dance from the warmth of a glass-roofed cabin.

With over 200 aurora nights per year, the question isn't whether you'll see them — it's how many times.

Getting Here

We arrange all transfers, meet-and-greet services, and VIP airport handling.

Four Winter Destinations

📍 Levi — Lapland's Largest Resort

Finland's #1 ski resort. 43 slopes, 230 km cross-country trails, vibrant village with 60+ restaurants. Home to Lapland Lodge and Villa Lumi luxury properties.

📍 Saariselkä — Gateway to the Wilderness

Urho Kekkonen National Park. Famous glass igloos, gold panning heritage, fell hiking. The most northern ski resort in Finland.

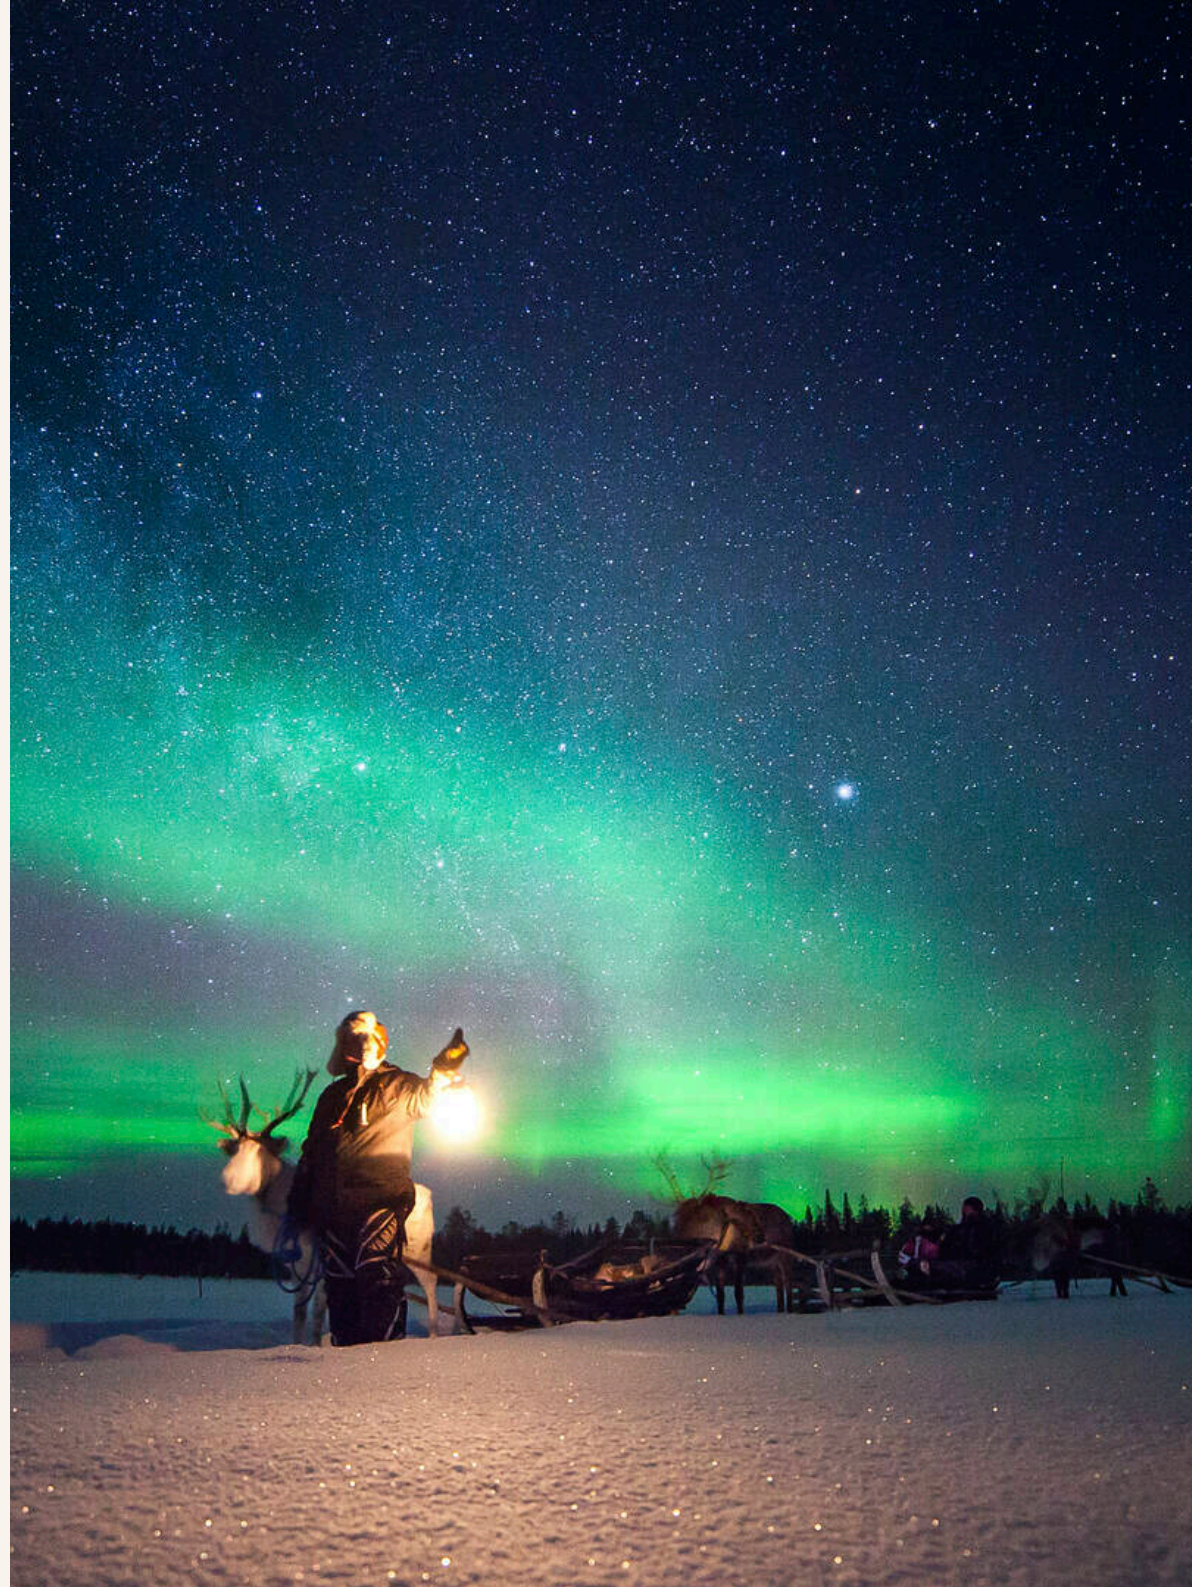

📍 Pyhä-Luosto — Untouched & Authentic

One of Finland's oldest national parks. Amethyst mine, traditional reindeer herding, intimate atmosphere. For clients who want the real Arctic.

ALSO AVAILABLE — FINNISH LAKELAND

📍 Rantasalmi — Järvisydän

All Lapland winter experiences — husky, snowmobile, ice fishing, smoke sauna — available in Lakeland too, at a more accessible price point. A great option for groups combining Lapland with a quieter finish.

Glass Igloos & Aurora Cabins

Sleep under the Northern Lights in a glass-roofed cabin — one of Finland's most iconic experiences. Available across Saariselkä, Levi, and Järvisydän Resort on Lake Saimaa.

From intimate glass igloos for couples to panoramic aurora suites, these unique stays combine warmth and comfort with unobstructed sky views. Fall asleep watching the stars; wake to a snow-covered forest.

These are among the most sought-after rooms in all of Finland — we recommend booking early for peak aurora season.

Lake Saimaa in Winter

Not all of Finland's magic is above the Arctic Circle. Järvisydän Resort on Lake Saimaa — one of Finland's top winter destinations — offers a completely different kind of wilderness experience.

The frozen lake stretches to the horizon. Glass-roofed Kota suites glow against the winter sky. Ice fishing on Saimaa, snowshoeing through ancient forests, cross-country skiing, and the sacred ritual of the smoke sauna complete a winter stay unlike any other.

A family-owned hidden gem — not listed on global booking platforms. Because Järvisydän operates independently, travel agents earn the best commissions in Finland. All Lapland winter activities — husky safaris, snowmobiling, wilderness dinners — available here at a significantly more accessible price point.
